

# HKQAA CSR Index Organisation List in 2019/20

HKQAA launched the HKQAA CSR Index in 2008 to provide quantitative metrics for measuring the maturity level of an organisation's social responsibility practices. The Index was developed with reference to ISO 26000 Guidance on Social Responsibility, covering seven core subjects, organisational governance, human rights, labour practices, the environment, fair operating practices, consumer issues and community involvement and development. It provides a framework which organisations can use to improve their social responsibility performance. The participating organisations of 2019/20 are listed below.
