

Participation in Developing the ISO Standard for Sustainable Finance

In December 2018, the expert from HKQAA was nominated by the Innovation and Technology Commission of the HKSAR Government to directly take part in the technical committee for **ISO/TC 322**, which is developing the ISO standard for sustainable finance.

In 2017, our expert was nominated by the Commission and the China National Institute of Standardization respectively to participate in the technical committee for ISO/TC 207/SC 4 and the working group for ISO/TC 207/SC 4/WG 7 to develop ISO 14030 Green bonds – Environmental performance of nominated projects and assets. Since 2018, HKQAA has also been an Observer of the Green Bond Principles (GBP) under the International Capital Market Association (ICMA), and has acted as an approved verifier for the Climate Bonds Standard. All these demonstrate our expertise in the fields of sustainability and responsible investment.
