

## MOU Signed with Center of Science and Technology and Industrialization Development of the Ministry of Housing and Urban-Rural Development

### *Join Hands to Promote the Development of Green Buildings*

On 15 April 2020, HKQAA signed a Memorandum of Understanding (MOU) with the Center of Science and Technology and Industrialization Development of the Ministry of Housing and Urban-Rural Development (MOHURD). Our aim is to utilize the resources of both parties to jointly promote the high-quality development of green buildings in Hong Kong and on the Mainland. We also aim to cooperate in the areas of research, consulting, certification, evaluation and training, and establish an in-depth exchange and collaboration platform for green buildings and other related fields. In view of the pandemic, the MOU signing event was held via video conference.

The MOU was signed by Dr Michael Lam, CEO of HKQAA (middle, bottom right photo), and Mr Liu Xinfeng, Director of the Center of Science and Technology and Industrialization Development of the MOHURD (left 2, bottom left photo). Mr P C Chan, Deputy CEO of HKQAA (left 1, bottom right photo) and Ms Jiang Zhongqiao, Deputy Director of the Center of Science and Technology and Industrialization Development of the MOHURD (right 2, bottom left photo) introduced both organizations' development history, core businesses and development directions. The parties spoke about their visions and expectations for further exchange and cooperation.

The MOU will utilize the strengths of both parties to foster exchanges and development in green buildings and other fields.
