

Conversion Arrangement for ISO/IEC 27001:2022

The International Organization for Standardization (ISO) has officially released ISO/IEC 27001:2022 standard “Information security, cybersecurity and privacy protection — Information security management systems — Requirements” in October 2022.

As per the requirements by International Accreditation Forum (IAF) and China National Accreditation Service for Conformity Assessment (CNAS), the conversion period will be lasted for 3 years from the publication of ISO/IEC 27001:2022. ISO/IEC 27001:2013 certification shall be converted to ISO/IEC 27001:2022 before 31 October 2025 and all ISO/IEC 27001:2013 certifications shall be withdrawn at the end of the conversion period.

If your organization is currently certified to ISO/IEC 27001:2013 by HKQAA, you will need to convert to ISO/IEC 27001:2022 before 31 October 2025. As per the requirements by IAF and CNAS, the conversion audit shall include at least an additional 0.5 manday to confirm transition of the certified organization when the transition is done during a surveillance audit or as a separate audit. If your organization wants to have a separate conversion audit, please contact our Customer Service for arrangement; or our Customer Service will confirm the conversion arrangement with you when the annual surveillance audit is scheduled. We will endeavor to assist you to ensure a smooth transition to meet the requirements of the new standard.

A ‘Frequently Asked Questions - For the conversion to ISO/IEC 27001:2022’ is also posted in our web site for your reference. Should you have any further inquiry, please feel free to contact us.
